Setting the 'PASE'
of packaging
technology

PASE Group Inc. 2-Head/Scale, sub-fill/tracking, automatic 5-gallon pail (open and tight-head), net weight, filling/lidding system with semi-automatic quart/gallon f-style option makes for a versatile, cost-effective solution.

This easy to use filling lidding machine was delivered with quick-change

filling lance parts and sanitary, tri-clamp flushing tubes for automatic, closed-loop cleaning of lances (inside and out). Machine was also equipped with automatic Rieke closing system and automatic, 2-stage crimping assembly.

PASE Group Inc. continued the beginning of the year with more of our easy to run, semi-auto, mobile, net weight filling/closing systems for a variety of containers and products.

PASE Group, Inc. has been very busy with many large, high-speed filling, lidding and turnkey packaging lines, which has highlighted our news lately....Yes, we still offer the best-built, smaller systems as highlighted

with these four machines shipped this quarter.

Be sure to tune in for the 2nd quarter newsletter! We will be shipping another new complete packaging line, which highlights another new 2-station, 3-head POP filler for 1-5 gallon containers, a new 4-station denester for 1-5 gallon tapered metal containers, and our new metal lid placer with bung orientation! All this equipment, including a 2-head labeler and robotic palletizer engineered, integrated, and installed by PASE Group, Inc.
