PASE GROUP GOING GLOBAL!

PASE Group is now shipping beyond the borders and is busy working with companies outside of the United States. The growth in our customer base is testament to our commitment to quality and overall customer satisfaction. State-side customers we have worked with are now getting their overseas facilities upgraded. Below is a couple of the machines we have recently shipped.

Model PG51-S-S-CP
Canada

Model PG52-T-A-R
Jamaica

PASE BULLETS

- PASE can fill Five's, Gallon's and Quarts all at the same time in one production run. Imagine filling all your containers with one batch mix. Call us for more information
- Contact us for competitive quotes on filling equipment or complete packaging lines. We would appreciate the opportunity.
- Call our Parts and service Manager, Gary Jones, for assistance with technical issues or spare parts that you may need. We can provide support for many brands of equipment.

PASE Group web sight has been upgraded!

Stop into our web (www.pasegroup.com) sight and see the new look.

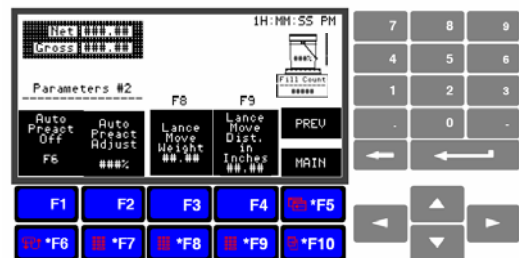

Floor Scraper Available for those Tough Clean up Jobs

PASE Group can supply you with a 4' Pneumatic scraper that will make paint clean-up easy. It can be obtained with non-sparking chisels for intrinsic areas. Call us for more details.

Software Corner

As we have said in previous articles, our software engineers have developed the best software HMI in the business. Many environmental and product variances can affect the final product weight. PASE Group software comes with our Self Adjusting Pre-Act which auto-adjusts to compensate

for environmental or product variances. We provide variables which are infinitely tunable to how you want it to perform. Just think of the \$\$ you will save!
